Club Redevelopment Risk Checklist

The top 25 risks that derail club redevelopments in NSW — and how to manage every one of them.

Club redevelopments in NSW are high-stakes capital projects. Boards are committing $5M-$30M+ of members' funds over 24-36 months, often while maintaining daily operations. The margin for error is thin.

This checklist distils the risks we see repeatedly across club projects — the ones that blow budgets, stall timelines, and fracture boards. Each risk includes specific mitigation steps drawn from real project experience.

25 risks. 5 categories. Every one of them preventable with the right governance and advice.

UpScale Project Management

Independent advisers for RSL, Leagues, Workers, Diggers, Bowling & Golf club redevelopments across NSW.
