15 Questions Every Director Should Ask Before Approving a Project

A governance checklist for club board members. These are the critical questions to ask before voting on major capital expenditure — drawn from our experience advising club boards across NSW.

Approving a major capital works project is among the most significant decisions a club board will ever make. A $5M-$50M+ redevelopment affects every member, every staff member, and the club's financial future for decades.

Yet many boards approve projects without asking the hard questions. The result? Cost blowouts, schedule delays, builder disputes, and member dissatisfaction that could have been avoided with disciplined due diligence.

Under the **Registered Clubs Act**, directors have a fiduciary duty to act in the best interests of the club and its members. These 15 questions provide the framework for meeting that obligation.
